## HD Brushless Blower Motor

Brushless Direct Current (BLDC) motors are quickly on the rise in the HD aftermarket. This sophisticated technology first appeared in the mid 1990s and has gained popularity with the O.E. due to higher speed ranges, longer operating life and higher efficiency.

### Additional Benefits

- More speed control with less power demand
- Quick control response
- Increased service life
- Quiet operation
- Larger operating speed range
- EMI Suppression
- Stall protection
