Everco Launches Web site

LEWISVILLE, Texas, February 14, 2008 – Everco Heavy Duty has launched its Web site to better serve its heavy duty customers; it was announced today by Matt Guden, business development manager for Everco. The address of the Web site is www.evercohd.com.

“We have developed a Web site that is user friendly and we hope it will serve as a great resource for our customers,” said Guden. “Our goal is to provide our customers with great support and service and our Web site reflects that commitment to serving our customers first.”

The Web site features a catalog section which includes the latest Everco Temperature Control Products and Illustrated Guide. In addition, the “Tech Tips” section offers downloadable tech tips that provide the technical support. Several web-based enhancements are planned for 2008 including the addition of technical training videos, an interactive parts lookup and online ordering capabilities.

Everco Heavy Duty supplies a comprehensive line of climate control products for over-the-road and off-road vehicles. The largest aftermarket climate control parts supplier in the industry, Everco Heavy Duty is also the largest manufacturer of re-engineered compressors in the world. For more information, visit www.evercohd.com.
